Elasto G5[®]

LOGO/NOMBRE DEL PRODUCTO

Adjuvant

syngenta[®]

Adjuvant registration number: 0915

A suspension concentrate formulation containing 68.0 % w/w copolymer of glycerol/coconut fatty acid/ phthalic acid anhydride.

An adjuvant for use with all authorised plant protection product in ornamental plant production and managed amenity turf.

The (COSHH) Control of Substances Hazardous to Health Regulations may apply to the use of this product at work.

SAFETY PRECAUTIONS

The directions for use on the label of plant protection product have to be followed and have priority over the label of ELASTO G5. Follow the general safety precautions for chemicals.

(a) Operator protection

Follow all operator protection instructions for the plant protection product. Where the personal protective equipment specified on the adjuvant label is different to that specified on the plant protection product label, the highest level of protective equipment must be worn.

Avoid contact with skin and eyes. Avoid inhalation.

In case of skin contact wash off immediately with soap and water.

In case of eye contact rinse thoroughly with warm water and seek medical aid.

If inhaled remove person to fresh air and get medical attention.

After ingestion consult a doctor immediately.

(b) Environmental protection

Do not contaminate water with the product or its container.

Do not clean application equipment near surface water. Avoid contamination via drains from farmyards and roads.

(c) Storage and disposal

Keep well closed in original container.

Do not store at temperatures above 50°C for extended periods.

Rinse the containers thoroughly with water before disposal.

Keep out of reach of children.

To avoid risks to human health and the environment, comply with the instructions for use.

In case of toxic or transport emergency ring +44 (0)1484 538444 any time

Syngenta UK Limited

IMPORTANT INFORMATION

FOR USE ONLY AS A WETTING AGENT

Crops	Ornamental plant production Managed amenity turf
Pesticides:	All authorised plant protection products
Maximum individual dose:	250 mL per 100 litres of spray solution (0.25% v/v)
Maximum number of treatments:	Follow the statutory conditions of use of the plant protection product
Latest time of application:	Follow the statutory conditions of use of the plant protection product

READ THE LABEL BEFORE USE. USING THIS PRODUCT IN A MANNER THAT IS INCONSISTENT WITH THE LABEL MAY BE AN OFFENCE. FOLLOW THE CODE OF PRACTICE FOR USING PLANT PROTECTION PRODUCTS.

L1074439 GBRI/SZ PPE 4137596 0560/2021

DIRECTIONS FOR USE

GENERAL INFORMATION

ELASTO G5 is safe to the crop. ELASTO G5 improves the effectiveness of various plant protection products. It optimizes the wetting and distribution of plant protection products on the leaf surface and the contact between spray droplets on the leaf surface and pest organisms and enhances the uptake of plant protection products into the plant.

Only use ELASTO G5 in a pH range of 3.0-9.0

Crops

ELASTO G5 can only be used as an adjuvant with herbicides, insecticides, fungicides and plant growth regulator on ornamental plant production and managed amenity turf. Follow the statutory conditions of use of the plant protection product.

Dose

250 mL per 100 litres of spray solution (0.25% v/v)

MIXING AND SPARYING

Always follow the instructions on the label of the crop protection product. Add ELASTO G5 to the spray tank last. ELASTO G5 can be dissolved easily in the spray solution by gently stirring the solution.

In case of doubt regarding the mixture compatibility with a specific plant protection product or the crop safety of the adjuvant towards a specific crop, it is recommended to use ELASTO G5 on a small area first before applying it at a larger scale.

TEXT AREA

Section 6 of the Health and Safety at Work Act **Additional Product Safety Information**

(This section does not form part of the product label under the Plant Protection Products Regulations 1995.)

The product label provides information on a specific pesticidal use of the product; do not use otherwise, unless you have assessed any potential hazard involved, the safety measures required and that the particular use has 'Extension of Use' approval or is otherwise permitted under the Plant Protection Products Regulations.

The information on this label is based on the best available information including data from test results.

Safety Data Sheet V1

SECTION 1. IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND OF THE COMPANY/ UNDERTAKING

1.1 Product Identifier

Trade name: ELASTO G5
Design code: A22883A
Product Registration number: 0915

1.2 Relevant Identified Uses of the substance or mixture and uses advised against

Use of the Substance/Mixture: Adjuvants

1.3 Details of the supplier of the safety data sheet

Company: Syngenta UK Ltd
CPC4, Capital Park, Fulbourn, Cambridge, CB21 5XE
Telephone: +44 (0) 1223 883400
Telefax: +44 (0) 1223 882195
E-mail address: customer.services@syngenta.com

1.4 Emergency telephone number

Emergency phone No.: +44 1484 538444

SECTION 2. HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture.

2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008)

Not a hazardous substance or mixture.

Supplemental Hazard Statements: EUH401 To avoid risks to human health and the environment,
comply with the instructions for use.

Precautionary statements: P102 Keep out of reach of children.

2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

SECTION 3. COMPOSITION / INFORMATION ON INGREDIENTS

3.2 Mixtures

Components

Remarks : No hazardous ingredients

SECTION 4. FIRST-AID MEASURES

4.1 Description of first aid measures

General advice: Have the product container, label or Safety Data Sheet with you when calling the emergency number, a poison control center or physician, or going for treatment.

If inhaled: Move the victim to fresh air. If breathing is irregular or stopped, administer artificial respiration. Keep patient warm and at rest. Call a physician or poison control centre immediately.

In case of skin contact: Take off all contaminated clothing immediately. Wash off immediately with plenty of water. If skin irritation persists, call a physician. Wash contaminated clothing before re-use.

In case of eye contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses. Immediate medical attention is required.

If swallowed: If swallowed, seek medical advice immediately and show this container or label. Do not induce vomiting.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms: Nonspecific. No symptoms known or expected.

4.3 Indication of any immediate medical attention and special treatment needed

Treatment: There is no specific antidote available. Treat symptomatically.

SECTION 5. FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media:

Extinguishing media - small fires

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Extinguishing media - large fires

Alcohol-resistant foam or Water spray

Unsuitable extinguishing media: Do not use a solid water stream as it may scatter and spread fire.

5.2 Special hazards arising from the substance or mixture

Specific hazards during fire-fighting: As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products of combustion (see section 10).

Exposure to decomposition products may be a hazard to health.

5.3 Advice for firefighters

Special protective equipment for firefighters: Wear full protective clothing and self-contained breathing apparatus.

Further information: Do not allow run-off from fire fighting to enter drains or water courses. Cool closed containers exposed to fire with water spray.

SECTION 6. ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions: Refer to protective measures listed in sections 7 and 8.

6.2 Environmental precautions

Environmental precautions: Prevent further leakage or spillage if safe to do so. Do not flush into surface water or sanitary sewer system. If the product contaminates rivers and lakes or drains inform respective authorities.

6.3 Methods and material for containment and cleaning up

Methods for cleaning up: Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Clean contaminated surface thoroughly. Clean with detergents. Avoid solvents. Retain and dispose of contaminated wash water.

6.4 Reference to other sections

For disposal considerations see section 13., Refer to protective measures listed in sections 7 and 8.

SECTION 7. HANDLING AND STORAGE

7.1 Precautions for safe handling

Advice on safe handling: No special protective measures against fire required. Avoid contact with skin and eyes. When using do not eat, drink or smoke. For personal protection see section 8.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers: No special storage conditions required. Keep containers tightly closed in a dry, cool and well-ventilated place. Keep out of the reach of children. Keep away from food, drink and animal feedingstuffs.

7.3 Specific end use(s)

Specific use(s): Refer to protective measures listed in sections 7 and 8.

SECTION 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Engineering Measures

Containment and/or segregation is the most reliable technical protection measure if exposure cannot be eliminated. The extent of these protection measures depends on the actual risks in use. Maintain air concentrations below occupational exposure standards. Where necessary, seek additional occupational hygiene advice.

Personal protective equipment

Eye protection: No special protective equipment required.

Hand protection

Remarks: No special protective equipment required.

Skin and body protection: No special protective equipment required. Select skin and body protection based on the physical job requirements.

Respiratory protection: No personal respiratory protective equipment normally required. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.

Protective measures: The use of technical measures should always have priority over the use of personal protective equipment. When selecting personal protective equipment, seek appropriate professional advice.

98 x 130 mm

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Appearance:	viscous liquid
Colour:	brown
Odour:	Characteristic
Odour Threshold:	No data available
pH:	3 - 8 (20 °C) Concentration: 50 g/l
Melting point/range:	< 0 °C
Boiling point/boiling range:	100 °C (1.013 hPa)
Flash point:Method:	219 °C Method: closed cup
Evaporation rate:	No data available
Flammability (solid, gas):	No data available
Upper explosion limit / Upper flammability limit:	No data available
Lower explosion limit / Lower flammability limit:	No data available
Vapour pressure:	No data available
Relative vapour density:	No data available
Density:	1.176 g/cm ³ (20 °C) 1.147 g/cm ³ (60 °C)
Solubility(ies)	
Water solubility:	No data available
Solubility in other solvents:	completely miscible Solvent: Water
Partition coefficient: n-octanol/water:	log Pow: -4,90
Auto-ignition temperature:	440 °C
Decomposition temperature:	No data available
Viscosity	
Viscosity, dynamic:	approximately 1,670 mPa.s (20 °C) approximately 173 mPa.s (60 °C)
Viscosity, kinematic:	No data available
Explosive properties:	No data available
Oxidizing properties:	Not applicable
9.2 Other information	
Explosives:	No data available
Oxidizing properties:	Not applicable
Self-ignition:	The substance or mixture is not classified as self heating.
Evaporation rate:	No data available

SECTION 10. STABILITY AND REACTIVITY

10.1 Reactivity

None reasonably foreseeable.

10.2 Chemical stability

Stable under normal conditions.

10.3 Possibility of hazardous reactions

Hazardous reactions: No dangerous reaction known under conditions of normal use.

10.4 Conditions to avoid

Conditions to avoid: No decomposition if used as directed.

10.5 Incompatible materials

Materials to avoid: None known.

10.6 Hazardous decomposition products

Hazardous decomposition products: No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

Information on likely routes of exposure: Ingestion, Inhalation, Skin contact, Eye contact

Acute toxicity

Product:

Acute oral toxicity: LD50 (Rat): > 2,000 mg/kg

Assessment: The substance or mixture has no acute oral toxicity.

Acute dermal toxicity: LD50: > 2,000 mg/kg

Assessment: The substance or mixture has no acute dermal toxicity.

Skin corrosion/irritation

Product:

Species: Rabbit

Result: No skin irritation

Serious eye damage/eye irritation

Product:

Species: Rabbit

Result: No eye irritation

Respiratory or skin sensitisation

Product:

Result: Not a skin sensitizer.

TEXT AREA
98 x 130 mm

SECTION 12. ECOLOGICAL INFORMATION

12.1 Toxicity

Product:

Toxicity to fish: LL50 (*Danio rerio* (zebra fish)): > 100 mg/l

Exposure time: 96 h

LL50 (*Oncorhynchus mykiss* (rainbow trout)): > 100 mg/l

Exposure time: 96 h

Toxicity to daphnia and

otheraquatic invertebrates: EC50 (*Daphnia magna* (Water flea)): > 100 mg/l

Exposure time: 48 h

Toxicity to algae/aquatic plants: EL50 (*Pseudokirchneriella subcapitata* (green algae)): > 100 mg/l

Exposure time: 72 h

12.2 Persistence and degradability

No data available

12.3 Bioaccumulative potential

No data available

12.4 Mobility in soil

No data available

12.5 Results of PBT and vPvB assessment

Product:

Assessment: This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

12.6 Other adverse effects

No data available

SECTION 13. DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Product: Do not contaminate ponds, waterways or ditches with chemical or used container. Do not dispose of waste into sewer. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance with local regulations.

Contaminated packaging: Empty remaining contents. Triple rinse containers. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers.

Waste Code: 150110, packaging containing residues of or contaminated by hazardous substances.

SECTION 14. TRANSPORT INFORMATION

14.1 UN number

Not regulated as a dangerous good

14.2 UN proper shipping name

Not regulated as a dangerous good

14.3 Transport hazard class(es)

Not regulated as a dangerous good

14.4 Packing group

Not regulated as a dangerous good

14.5 Environmental hazards

Not regulated as a dangerous good

14.6 Special precautions for user

Remarks : Not classified as dangerous in the meaning of transport regulations.

14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

SECTION 15. REGULATORY INFORMATION

15.1 Safety, health and environmental regulation/legislation specific for the substance or mixture

Regulation (EC) No 649/2012 of the European Parliament and the Council concerning the export and import of dangerous chemicals: Not applicable

REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59): Not applicable

REACH - List of substances subject to authorisation (Annex XIV): Not applicable

REACH - Candidate List of Substances of Very High Concern for Authorisation (Article 59): Not applicable

Regulation (EC) No 1005/2009 on substances that deplete the ozone layer: Not applicable

Regulation (EC) No 850/2004 on persistent organic pollutants: Not applicable

REACH - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, preparations and articles (Annex XVII): Not applicable

Seveso III: Directive 2012/18/EU of the European Parliament and of the Council on the control of major-accident hazards involving dangerous substances.

Other regulations:

Take note of Directive 98/24/EC on the protection of the health and safety of workers from the risks related to chemical agents at work.

15.2 Chemical Safety Assessment

A Chemical Safety Assessment is not required for this substance when it is used in the specified applications.

ELASTO G5®

Adjuvant registration number: 0915

A suspension concentrate formulation containing 68.0 % w/w copolymer of glycerol/coconut fatty acid/phthalic acid anhydride.

An adjuvant for use with all authorised plant protection product in ornamental plant production and managed amenity turf.

SAFETY PRECAUTIONS

The directions for use on the label of plant protection product have to be followed and have priority over the label of ELASTO G5®. Follow the general safety precautions for chemicals.

(a) Operator protection

Follow all operator protection instructions for the plant protection product. Where the personal protective equipment specified on the adjuvant label is different to that specified on the plant protection product label, the highest level of protective equipment must be worn.

Avoid contact with skin and eyes. Avoid inhalation.

In case of skin contact wash off immediately with soap and water.

In case of eye contact rinse thoroughly with warm water and seek medical aid.

If inhaled remove person to fresh air and get medical attention.

After ingestion consult a doctor immediately.

(b) Environmental protection

Do not contaminate water with the product or its container.

Do not clean application equipment near surface water. Avoid contamination via drains from farmyards and roads.

(c) Storage and disposal

Keep well closed in original container.

Do not store at temperatures above 50°C for extended periods.

Rinse the containers thoroughly with water before disposal.

Keep out of reach of children.

To avoid risks to human health and the environment, comply with the instructions for use.

IMPORTANT INFORMATION

FOR USE ONLY AS A WETTING AGENT

Crops	Ornamental plant production Managed amenity turf
