RISK AND SAFETY INFORMATION

VENZAR® 500 SC

HERBICIDE containing 500G/L Lenacil

Contains 1,2 -benzothiazolin-3-one. May produce an allergic reaction.

Suspected of causing cancer

Very toxic to aquatic life with long lasting effects.

Keep out of reach of children

Do not eat, drink or smoke when using this product

Contaminated work clothing should not be allowed out of the workplace

Avoid release to the environment

If exposed or concerned: Get medical advice/attention

Wash contaminated clothing before re-use

Collect spillage

Do not contaminate water with the product or its container (Do not clean application equipment near surface water / avoid contamination via drains from farmyards or roads)

Dispose of contents / container to a licensed hazardous-waste disposal contractor or collection site except for triple rinsed empty clean containers which can be disposed of as non-hazardous waste.

TO AVOID RISKS TO HUMAN HEALTH AND THE ENVIRONMENT, COMPLY WITH THE INSTRUCTIONS FOR USE.

MAPP 18799 - PCS No 04805

SAFETY PRECAUTIONS

OPERATOR PROTECTION

WASH CONCENTRATE from skin or eyes immediately

DO NOT BREATHE SPRAY

WHEN USING, DO NOT EAT, DRINK OR SMOKE.

WASH HANDS AND EXPOSED SKIN before meals and after work

ENVIRONMENTAL PROTECTION (UK only)

Since there is a risk to aquatic life from use, users not applying the statutory buffer zone must either themselves carry out or ensure that someone else has carried out a Local Environment Risk Assessment for Pesticides (LERAP) on their behalf before each spraying operation from a horizontal boom sprayer. Users must not allow direct spray from such sprayers to fall within 5m of the top of the bank of any static or flowing waterbody or within 1m of a ditch which is dry at the time of application (these distances to be measured as set out in the booklet 'Local Environment Risk Assessment for Pesticides - Horizontal Boom Sprayers' and any amendments that are made to it) unless:

(a) The LERAP indicates that a narrower buffer zone will be sufficient; and

(b) Any measures indicated by the LERAP as justifying the narrower buffer zone are complied with in full and in accordance with any conditions applicable to them.

Spray must be aimed away from water.

The results of the LERAP must be recorded in written form and must be available for a period of three years for inspection to any person entitled to exercise enforcement powers under or in connection with the Plant Protection Products Regulations 2011 or the Plant Protection Products (Sustainable Use) Regulations 2012. (An electronic record will satisfy the requirement for a written record, providing it is similarly available for inspection and can be copied).

Detailed guidance on LERAPs and how to conduct a LERAP are contained in the booklet 'Local Environment Risk Assessment for Pesticides - Horizontal Boom Sprayers', available from HSE Chemicals Regulation Division's website. All LERAPs must be carried out in accordance with this Guidance and any amendments that are made to it.

IMPORTANT INFORMATION

FOR USE ONLY AS A PROFESSIONAL HERBICIDE

Crop: Sugar beet and fodder beet (IRL only)

Maximum individual dose: 0.4 L/ha

Maximum total dose per crop: 1 L/ha

Latest time of application: Before the leaves of the crop meet between the rows

Method of application: Tractor mounted /trailed sprayer

Other Specific Restrictions:

This product must only be applied after BBCH 10 growth stage (UK only) A maximum of 1litre product/ha may be applied to the same area of land every three years

(UK only) A maximum total dose of 500g/l lenacil (1 litre product/ha) per hectare may only be applied every third year on the same field.

READ THE LABEL BEFORE USE. USING THIS PRODUCT IN A MANNER THAT IS INCONSISTENT WITH THE LABEL MAY BE AN OFFENCE. FOLLOW THE CODE OF PRACTICE FOR USING PLANT PROTECTION PRODUCTS.

Other specific restrictions:

This product qualifies for inclusion within the Local Environment Risk Assessment for Pesticides (LERAP) scheme. Before each spraying operation from a horizontal boom sprayer, either a LERAP must be carried out in accordance with the 'Local Environment Risk Assessment for Pesticides Horizontal Boom Sprayers' booklet available from the HSE Chemicals Regulation Division's website or the statutory buffer zone must be maintained. The results of the LERAP must be recorded and kept available for three years.

This product must only be applied after BBCH10 growth stage.

A maximum total dose of 500g/l lenacil per hectare may only be applied every third year on the same field.

STORAGE AND DISPOSAL

KEEP IN ORIGINAL CONTAINER, tightly closed, in a safe place

WASH OUT CONTAINER THOROUGHLY, empty into spray tank and dispose of safely
