Description

Osmocote Topdress FT 4-5M has been designed specifically for container nursery stock. It meets all topdress application needs. It incorporates special Fusion Technology to ensure it adheres easily to growing medium. If the containers blow over, no granules will be lost.

Benefits

\\ High in fast- and slow-release nitrogen and phosphorous

\\ Ensures even distribution with fine granule size

\\ Contains added trace elements for optimal greening effect

ICL

How to use

1   Reduce these recommended rates for sensitive plant material.

2   Apply the product only by topdressing. In case drip irrigation is used, place the product under the drippers.

3   This product is not meant for mixing or dibbling in substrates.

4   Topdress products cannot be used with capillary mats or ebb / flow irrigation systems.

5   Store under dry conditions.

6   Properly seal partly used or damaged bags.

Application rates

	Containers < 10 liters	Containers > 10 liters
Container Nursery Stock	2 – 4 g/l	for every extra liter content*

*Example: Total rate when using a 50 liter container: 3 g/l for first 10 liter = 30 gram 1 g/l for the additional 40 liter = 40 gram Total = 30 + 40 = 70 gram per 50 liter container Trail first on a small scale before changing the rate, or any other variables, As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.
