Corteva Agriscience<sup>™</sup> encourages you and expects you to read and understand the entire SDS as there is important information throughout the document. This SDS provides users with information relating to the protection of human health and safety at the workplace, protection of the environment and supports emergency response. Product users and applicators should primarily refer to the product label attached to or accompanying the product container. This Safety Data Sheet adheres to the standards and regulatory requirements of Great Britain and may not meet the regulatory requirements in other countries.

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### **1.1 Product identifier**

Trade name	: TALIUS®
Unique Formula Identifier (UFI)	: T25C-J0YQ-H006-HHY3

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub-	:	Fungicide
stance/Mixture		

#### 1.3 Details of the supplier of the safety data sheet

### COMPANY IDENTIFICATION Manufacturer/importer Corteva Agriscience UK Ltd CPC2 CAPITAL PARK FULBOURN CAMBRIDGE - England - CB21 5XE UNITED KINGDOM

Customer Information	:	+44 1462 457272
Number		
E-mail address	:	SDS@corteva.com

#### **1.4 Emergency telephone number**

SGS +32 3 575 55 55 OR

+44 161 88 41235

#### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Classification (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

Serious eye damage, Category 1 H318: Causes serious eye damage. ™ ® Trademarks of Corteva Agriscience and its affiliated companies.

# **TALIUS**®

VersionRevision Date:SDS Number:1.014.11.2023800080000319	Date of last issue: - Date of first issue: 14.11.2023
-----------------------------------------------------------	----------------------------------------------------------

Carcinogenicity, Category 2 Long-term (chronic) aquatic hazard, Category 1 H351: Suspected of causing cancer. H410: Very toxic to aquatic life with long lasting effects.

#### 2.2 Label elements

Labelling (REGULATION (EC) No 1272/2008) as amended by GB-CLP Regulation, UK SI 2019/720, and UK SI 2020/1567)

Hazard pictograms :	
Signal word :	Danger
Hazard statements :	<ul><li>H318 Causes serious eye damage.</li><li>H351 Suspected of causing cancer.</li><li>H410 Very toxic to aquatic life with long lasting effects.</li></ul>
Precautionary statements :	<ul> <li>Prevention:</li> <li>P201 Obtain special instructions before use.</li> <li>P273 Avoid release to the environment.</li> <li>P280 Wear protective gloves/ protective clothing/ eye protection/ face protection/ hearing protection.</li> </ul>
	Response: P305 + P351 + P338 + P310 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if pre- sent and easy to do. Continue rinsing. Immediately call a POISON CENTER/ doctor. P308 + P313 IF exposed or concerned: Get medical advice/ attention. P391 Collect spillage.
	<b>Disposal:</b> P501 Dispose of contents/container to a licensed hazardous-
	waste disposalcontractor or collection site except for empty clean containers whichcan be disposed of as non-hazardous waste.

proquinazid (ISO) Benzenesulfonic acid, C10-13-alkyl derivs., calcium salt Calcium dodecylbenzene sulfonate

### Additional Labelling

EUH401 To avoid risks to human health and the environment, comply with the instructions for use.

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	14.11.2023	800080000319	Date of first issue: 14.11.2023

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

### **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

### **SECTION 4: First aid measures**

4.1 Description of first aid measures			
General advice	:	Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For specialist advice physicians should contact the National Poisons Information Service: Tel. 111 for England and Wales and Tel. 08454 24 24 24 for Scotland.	
If inhaled	:	Remove person to fresh air. If signs/symptoms continue, get medical attention. Artificial respiration and/or oxygen may be necessary.	
In case of skin contact	:	Take off all contaminated clothing immediately. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.	
In case of eye contact	:	Hold eye open and rinse slowly and gently with water for 15- 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.	
If swallowed	:	Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. DO NOT induce vomiting unless directed to do so by a physi- cian or poison control center. Never give anything by mouth to an unconscious person.	
4.2 Most important symptoms a	nd e	effects, both acute and delayed	

### 4

Symptoms	:	No cases of human intoxication are known and the symptoms
		of experimental intoxication are not known.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Treatment
-----------

: Treat symptomatically.

### **SECTION 5: Firefighting measures**

5.1 Extinguishing media		
Suitable extinguishing media	:	Water spray Alcohol-resistant foam Carbon dioxide (CO2)
Unsuitable extinguishing media	:	Do not use direct water stream. High volume water jet

#### 5.2 Special hazards arising from the substance or mixture

Specific hazards during fire- : Exposure to combustion products may be a hazard to health.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

# **TALIUS**®

### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures Personal precautions Use personal protective equipment. : Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection. **6.2 Environmental precautions** Environmental precautions : If the product contaminates rivers and lakes or drains inform respective authorities. Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water.

### 6.4 Reference to other sections

### **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

Local/Total ventilation Advice on safe handling	-	Use with local exhaust ventilation. To avoid spills during handling keep bottle on a metal tray. Avoid formation of aerosol. Provide sufficient air exchange and/or exhaust in work rooms. Do not breathe vapours/dust. Do not smoke. Handle in accordance with good industrial hygiene and safety practice. Avoid exposure - obtain special instructions before use. Smoking, eating and drinking should be prohibited in the ap- plication area. Do not get on skin or clothing. Avoid inhalation of vapour or mist. Do not swallow. Do not get in eyes. Avoid contact with skin and eyes.

Viscosity, kinematic		: 3.79 mm2/s (20 °C)	
Explosive properties		: Not explosive	
Oxidi	zing properties	: The substance or mixture is not classified as oxidi	zing.
	<b>information</b> gnition	: 285 °C	

### **SECTION 10: Stability and reactivity**

#### 10.1 Reactivity

No dangerous reaction known under conditions of normal use. Not classified as a reactivity hazard.

#### 10.2 Chemical stability

No decomposition if stored and applied as directed. Stable under normal conditions.

#### 10.3 Possibility of hazardous reactions

Hazardous reactions	:	Vapours may form explosive mixture with air.
		Stable under recommended storage conditions. No hazards to be specially mentioned. Vapours may form explosive mixture with air. May form explosive dust-air mixture.
10.4 Conditions to avoid		
Conditions to avoid	:	Heat, flames and sparks.

#### 10.5 Incompatible materials

Materials to avoid : Strong acids Strong bases

### **10.6 Hazardous decomposition products**

Decomposition products depend upon temperature, air supply and the presence of other materials.

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	14.11.2023	800080000319	Date of first issue: 14.11.2023

Decomposition products can include and are not limited to: Carbon oxides

### **SECTION 11: Toxicological information**

### 11.1 Information on toxicological effects

Acute	toxicity
-------	----------

Componente:

Acute oral toxicity	: LD50 (Rat, male): > 5,000 mg/kg Method: OECD Test Guideline 401
	LD50 (Rat, female): 4,846 mg/kg Method: OECD Test Guideline 401
Acute inhalation toxicity	<ul> <li>LC50 (Rat, male and female): &gt; 5.2 mg/l Exposure time: 4 h Test atmosphere: dust/mist Method: OECD Test Guideline 403 Symptoms: No deaths occurred at this concentration. Assessment: The substance or mixture has no acute inhala- tion toxicity</li> </ul>
Acute dermal toxicity	: LD50 (Rat): > 5,000 mg/kg Method: OECD Test Guideline 402

Acute dermal toxicity : LD50 (Rat, male and female): > 2,000 mg/kg Assessment: The substance or mixture has no acute dermal toxicity

### Respiratory or skin sensitisation

#### Components:

proquinazid (ISO):		
Test Type	:	Maximisation Test
Species	:	Guinea pig
Method	:	OECD Test Guideline 406
Result	:	Did not cause sensitisation on laboratory animals.

#### Benzenesulfonic acid, C10-13-alkyl derivs., calcium salt:

Species	:	Guinea pig
Assessment	:	Does not cause skin sensitisation.

#### Calcium dodecylbenzene sulfonate:

Species	:	Guinea pig
Assessment	:	Does not cause skin sensitisation.

#### Ethylhexanol:

Test Type	:	HRIPT (human repeat insult patch test)
Species	:	human
Assessment	:	Does not cause skin sensitisation.

#### Germ cell mutagenicity

#### **Components:**

### proquinazid (ISO):

Germ cell mutagenicity- As-	:	In vitro genetic toxicity studies were negative., In vivo tests did
sessment		not show mutagenic effects

#### Benzenesulfonic acid, C10-13-alkyl derivs., calcium salt:

Germ cell mutagenicity- As-	:	In vitro genetic toxicity studies were negative., Animal genetic
sessment		toxicity studies were negative.

### Calcium dodecylbenzene sulfonate:

Germ cell mutagenicity- As- sessment	:	For similar material(s):, In vitro genetic toxicity studies were negative., Animal genetic toxicity studies were negative.

### Ethylhexanol:

Germ cell mutagenicity- As-	:	In vitro genetic toxicity studies were negative., Animal genetic
sessment		toxicity studies were negative.

According to REACH Regulation (EC) No 1907/2006, as amended by UK REACH Regulations SI 2019/758

#### Aspiration toxicity

### Product:

Based on physical properties, not likely to be an aspiration hazard.

### **Components:**

### proquinazid (ISO):

Based on physical properties, not likely to be an aspiration hazard.

### Benzenesulfonic acid, C10-13-alkyl derivs., calcium salt:

Based on physical properties, not likely to be an aspiration hazard.

#### Ethylhexanol:

May be harmful if swallowed and enters airways.

### **SECTION 12: Ecological information**

#### 12.1 Toxicity

Product:		
Toxicity to fish	:	LC50 (Oncorhynchus mykiss (rainbow trout)): 2.3 mg/l Exposure time: 96 h Method: OECD Test Guideline 203 GLP: yes
Toxicity to daphnia and other aquatic invertebrates	:	EC50 (Daphnia (water flea)): 1.8 mg/l Exposure time: 48 h Test Type: static test Method: OECD Test Guideline 202 GLP: yes
Toxicity to algae/aquatic plants	:	ErC50 (Pseudokirchneriella subcapitata (green algae)): 2.5 mg/l Exposure time: 72 h Method: OECD Test Guideline 201 GLP: yes

### **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

Product

: If wastes and/or containers cannot be disposed of according to the product label directions, disposal of this material must be in accordance with your local or area regulatory authorities. This information presented below only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations.

If the material as supplied becomes a waste, follow all applicable regional, national and local laws.

### **SECTION 14: Transport information**

#### 14.6 Special precautions for user

Marine Pollutants assigned UN number 3077 and 3082 in single or combination packaging containing a net quantity per single or inner packaging of 5 L or less for liquids or having a net mass per single or inner packaging of 5 KG or less for solids may be transported as non-dangerous goods as provided in section 2.10.2.7 of IMDG code, IATA Special provision A197, and ADR/RID special provision 375.

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data

Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### 14.7 Transport in bulk according to Annex II of Marpol and the IBC Code

Not applicable for product as supplied.

#### **SECTION 15: Regulatory information**

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Relevant EU provisions transposed through retained EU law

UK REACH Candidate list of substances of very high concern (SVHC) for Authorisation	:	Not applicable
The Persistent Organic Pollutants Regulations (retained Regulation (EU) 2019/1021 as amended for Great Britain)	:	Not applicable
Regulation (EC) No 1005/2009 on substances that deplete the ozone layer	:	Not applicable
UK REACH List of substances subject to authorisation (Annex XIV)	:	Not applicable
Seveso III: Directive 2012/18/EU of the Euro- pean Parliament and of the Council on the control of major-accident hazards involving dangerous substances.	ΕŊ	VIRONMENTAL HAZARDS

Registration Number : MAPP 20360

#### 15.2 Chemical safety assessment

A Chemical Safety Assessment is not required for this substance when it is used in the specified applications.

The mixture is evaluated within the frame of the provisions of Regulation (EC) No. 1107/2009. Refer to the label for exposure assessment information.

#### **SECTION 16: Other information**

#### Full text of H-Statements

H302 :	Harmful if swallowed.
H315 :	Causes skin irritation.
H318 :	Causes serious eye damage.
H319 :	Causes serious eye irritation.
H332 :	Harmful if inhaled.
H335 :	May cause respiratory irritation.
H351 :	Suspected of causing cancer.
H400 :	Very toxic to aquatic life.
H410 :	Very toxic to aquatic life with long lasting effects.
H412 :	Harmful to aquatic life with long lasting effects.
