

PRISTINE[®]

THE NEXT GENERATION TRAYS

Pristine means pure.

Pristine trays are trays without dye additives. This means that the recycled material determines the colour of the tray. This is plastic in its purest form! An easy way to make your business sustainable.

Pristine transport trays are going to be Modiform's standard. Would you like to have your propagation tray as a Pristine version as well? No problem! Please contact Sales Support for this.

No dye added

100% recycled polystyrene (PS)

Materials in their purest form

The recycled material used determines the colour
